KEVIN PRINCE

Analyst/Software Engineer

Base Location: Bangalore

Email ID: kevin.prince@capgemini.com

Mobile No: +91 9538174416

Grade: A4

EMP ID-46290482

Strengths

Full Stack Developer

- Hands on experience in creating microservices with **Spring Boot, Spring security, Eureka server, API gateway, Swagger**.

- Proficient in developing responsive full stack webapps using **Angular** with authentication using **Auth guard**, **Angular routing, Reactive and Template driven form**.

- Experience in creating documents with the help of **Swagger** and in unit testing like **Junit and Mockito**.

- Objective is to work on a challenging job profile which provides me an opportunity to enhance my technical skill and knowledge.

- Software Engineer who is strong in design and integration with intuitive problem-solving skills. Passionate about implementing and launching new project.

Achievement

DEALS AND COUPONS FINDER APP

- Completed end to end case study of Deals and Coupons Finder Application along with JWT authentication, Swagger, MongoDB and Angular used for user interface.
- User and Admin have the same login page but based on the type of user it lands on the respective pages.
- Admin will have the Admin section where he/she will be able to perform CRUD operation on Deals and Coupons. While the User will be able to view and redeem the deal/coupon.

MUSIC APPLICATION

- Developed Music web application fully responsive using spring microservices and Angular with MySQL as database.
- Where users could Add/Delete songs and they could add that song to favourite section.
